

Rebates and concessions

The State and Federal Government fund a number of rebate programs for electricity and gas customers in NSW. There are also some water rebates available through individual water providers.

Energy rebates are available to eligible consumers who have an account in their name (**retail customers**) or who pay their bill to an owner or manager of a residential park, retirement village or strata scheme (**on-supply customers**). The rates and processes for applying may be different depending on who bills the consumer.

Other energy concessions

You may wish to check with Department of Human Services Centrelink about other concessions that you may be entitled to such as the Pension supplement which includes a Utilities allowance. You may be eligible for the Energy Supplement too. Find out more: humanservices.gov.au

Water rebates

Water rebates are administered by individual water providers who each have specific eligibility criteria. Contact your water provider to discuss your eligibility.

To be eligible for the pension rebate from Sydney Water, Shoalhaven Water and Hunter Water you must own and live in your home and hold either a Pensioner Concession Card issued by DHS or DVA, DVA Gold Card (marked War Widow or War Widow Pension, Totally and Permanently Incapacitated or Disability Pension).

If you own a property with someone who is not a pensioner, you may still get a rebate. This will depend on your relationship with the other owner and your eligibility for the rebate.
